THE ARMY UNIVERSITY

"Educating Leaders to Win in a Complex World"

- The Army University represents a greater investment in our Soldiers and Civilians through improved education that will increase competence, character and commitment.
- Develops agile, adaptive, and innovative military professionals through increased academic rigor across a career of service in the Army.
- Supports the Total Army with increased educational opportunities for the Army Reserve and National Guard.
- Enhances the ability of military professionals to integrate their military and civilian education to receive valid academic credit.
- Improves Soldiers' ability to transition in to quality employment opportunities after their service, promoting the "Soldier for Life" model.
- Increases the rate of innovation across the educational enterprise in support of the Army Operating Concept
- Creates a common understanding of education across the Total Army and empowers institutional agility through unity of effort and networked collaboration.
- Promotes partnering and networking with civilian universities that expands and i

- Research and Publishing
- Faculty Development

- Curriculum Development
